Abstract

1 Introduction

- 1.1 Three different algorithms to perform linear regressions
- 1.2 The Frakes function as a toy example
- 1.3 Live data from the XX

2 Materials and Methods

Descriptions of set-ups with definitions and assumptions

2.1 Part A

2.2 Part B

2.3 Part C

2.4 Part D

2.5 Part E

2.6 Part F

2.7 Part G

3 Results

3.1 Part A

3.2 Part B

3.3 Part C

3.4 Part D

3.5 Part E

3.6 Part F

3.7 Part G

4 Discussions

4.1 Part A

4.2 Part B

4.3 Part C

4.4 Part D

4.5 Part E

4.6 Part F

4.7 Part G

5 Conclusion

We have successfully XX.
